

Chameleon™

JOB POSTING DELIVERY GATEWAY

Chameleon™ Connects You to Job Boards, Business and Social Networks, Colleges/Universities, Alumni Groups, OFCCP State Boards and Free Sites – All Over the World – From a Single Online Application.

Posting Jobs Just Got Easier.

eQuest is the largest job posting distributor in the world – delivering one-quarter billion job transactions annually.

What is Chameleon™?

Chameleon was specifically designed for staffing companies and small and medium sized organizations. Chameleon is similar to eQuest's "Enterprise" job posting version – except it has the added flexibility to be:

- run as a stand-alone application
- white-labeled to your company's colors and logo
- easily integrated into your existing candidate system

However you choose to access Chameleon, you can make your Internet job posting more efficient by eliminating manual job posting and give you access to a wider candidate audience – in your own community or anywhere in the world.

Chameleon comes with many unique features:

Users can:

- create and send jobs to one or more boards with a single click
- schedule job postings for future delivery to sync up with highest candidate traffic days
- edit and delete jobs
- track the delivery status of each job including a special link to the job at the board confirming delivery
- set real-time display counters to show recruiters current job board inventory
- automated job board recommendation list for each unique job based on title of job and location

Administrators can:

- control the access to job boards by division, region, country, or individual recruiter
- control the amount of jobs to be posted to each board
- trigger automated emails when job board inventory runs low
- leave real-time notes on each job board
- group favorites

Integration and New Features

Not only has Chameleon dramatically reduced the time for integration, it can morph itself to any online software including home-grown systems, CRMs, email gateways, or unique applications like Lotus Notes or Salesforce.

Plus, Chameleon has a devoted fulltime R&D staff hired specifically to enhance and create new features.

eQuest is the leading international job distributor for the Fortune 500 and the majority of the world's Applicant Tracking Systems, CRMs and ERPs. Last year alone eQuest delivered approximately One-Quarter Billion job postings.
